Subject: Two months Feedback

[06/06, 10:19] Both of u have done very well But as a parent online classes for nursery kids is little bit difficult as they are really small kids to understand so actually we were attending the classes on behalf of them.

Thanks a lot

Hello Mam, online classes are the best options now, overall experience was good, teachers works so hard for this new education facilitation. Shivay learns a lot new things & responding well for teachers work.

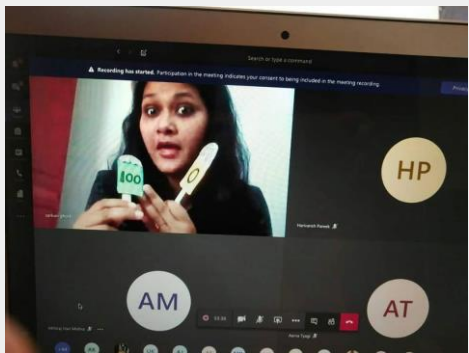

Thanks a lot

Proud mother of Shivay (Nursery Daisy)

its excellent ma'am all teachers give her great efforts I'm satisfied with this

Thanks a lot

Dear Mam, First of all I would like to thank all Teachers for their efforts to involve children in a new way of learning. Obviously online classes can't be as effective as offline but still it is solving the purpose. One positive side is that kids are exposed to a new way of learning and interacting with their teachers. Overall I appreciate the school efforts to setup infrastructure for online classes and teachers efforts to get alligned with it. We as a parents are also trying our best to get alligned to it. Kids are also comfortable now and enjoying it. Thanks, Roopendra & Shaline Nirbhay's Parents

Thanks a lot

hi ma'am my child really enjoyed the online classes. I thought it was well planned and layed out, easy for me to follow. The work load was just enough, so i could finish everything with enough time, learn about the topics and not feel over loaded and rushed many thanks for nurturing them.

Respected mam, Our experience for online classes with the school teachers had been outstanding. We are of the opinion that it may continue till the vaccination for Covid 19 becomes available in the market. Moreover, it is not safe to send our little ones to attend the school. Since they are not enough capable to handle that crucial situation. As you are aware, the fear today is much more that it was in March. Online classes can be further continued till the situation becomes normalise. In so far as we are concerned we do not have any problem in attending the online classes for the safety of our wards. All the teachers are highly intelligent and cooperative. With warm regards, Neetu & Neeraj (Parents) Niharika Sharma 1st A

Hello ma'am I am happy with the initiative school has taken to start the online classes for teaching kids . In such a situation of covid 19 home is the safest place for all of us . I am happy to see my child responding and learning through online classes. I am thankful to all the wonderful teachers in nurturing my child in such a beautiful manner. Hoping the same in the future also . Thank you to all 😊's mother

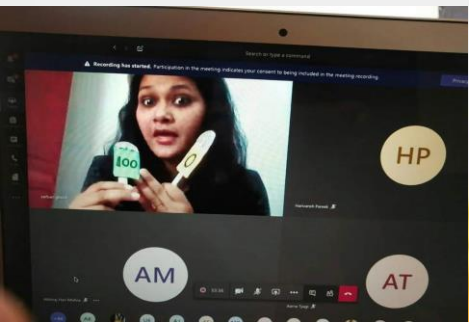

Thanks a lot

Thanks and of you to all dear teachers who give their precious time to educate their students during lockdown.

Online classes are nice all teachers are very nice and cooperative during classes give proper time to understand student opinion and their grasping ability.

It was nice and valuable for us to understand teachers and student relationship.

Thanks a lot

Online class which held April and may was very beneficial for all students. But little bit interruptions of internet and other things are made difficult to understand children.

Thanks a lot

Feedback on online classes- my overall experience for my son was ok. Small kids find it difficult to concentrate on screen for long and we have to sit with them when they are taking classes. That means we mothers / fathers have to spare 2 hrs of our hectic morning schedule. Then comes the homework post lunch.. so technically we have to teach them again and get the homework done. But in this testing times of corona I would prefer to put on extra effort to teach my kid rather than sending them to school and put them at risk of contracting corona. The slides should be uploaded on portal .. in case kids miss it or are unable to attend due to internet and connection errors. Online classes are not ideal but we don't have much option. Thank you!!

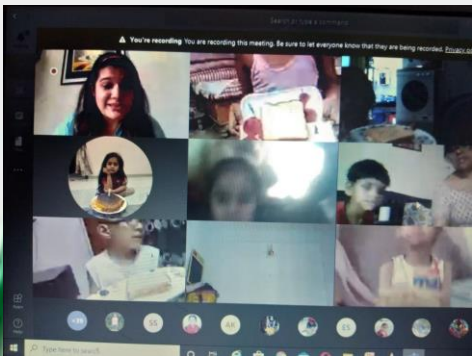

Thanks a lot

Hello mam It is good that online classes were conducted , but here are some points which can be improved like 1. Too much network issue, school should provide the broadband to teachers. As we think teachers are using there phone network 2. Increase the duration of class 3. Separate the other sections . Do not include other section students in one class 4. Initially anvesha was very excited , but gradually she lost interest in the class , this is because she was saying that mam does not call my name ... She feels neglected by her class teacher. 5. If you reduce the class strength and increase the duration and ask questions to random student by calling their name then they will take interest in the class other wise it would be the one side lecture that can also be done by just sending you voice recording . 6. Ask any random student to read or what you showing to them . These all are just very simple points which can be improved jab hum bhi bachche the to hume ye zayada tension rehti thi ki humari madam humse baat nahi karti kuch puchti nahi hai., Because class teacher se saare bachche pyar karte hain aur jab aisa nahi hota to bachchon ignored feel karte hen 😊 Give some time to each student.

Thanks a lot

Dear Ma'am, it has been a very difficult time for all of us. Eventually everyday is a new day and mother nature is throwing new challenges towards us. We are worried about lives, jobs, health but thankfully not my child's education. St. Xavier's has successfully taken care of it. Some may say what's the deal... All schools are conducting online classes? I would say it's different because I have seen the teachers conducting their classes how efficiently. They are taking care of every single child and making sure that they participate in the class. It's difficult for a teacher when students are not inside a classroom, Parents are observing every single word she says, their own kids barge in the middle of a class... And she over comes all odds and continues to teach. I am very happy as I see my kid is following his lessons and learning well. I think it's a very successful initiative the school has taken. I appreciate the effort went behind it.

Thanks a lot

Feedback: Ma'am I'm equally engaged during online classes. I am playing role of half class teacher. Please ask school to hire me officially and paying back because online classes are making me overloaded with my responsibilities and getting nothing

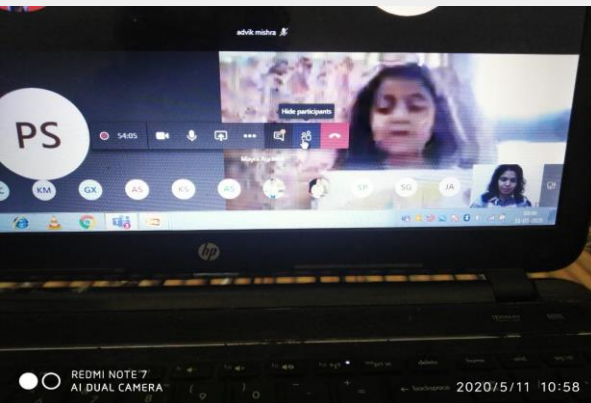

Thanks a lot

proud mother of Aaaneesh (Grade 2 B)

I can see that teachers are working hard for kids... And putting efforts to educate them and clearing their doubts... From my side big salute to all teachers.. But when it comes to student they are not much sincere in attending class and not much comfortable. For small classes kids it is very difficult to learn this technology at early stage.. Even many of parents are not having technology support in their home. This is new thing and.. It will take time to be disciplined in virtual classes and adopt such type technology

Thanks a lot

Feedback on online classes- my experience is good for my daughter, except occasional removal by kids.. but that's expected. Online classes are not a substitute for class room teaching but I would prefer the online mode until corona ends or we have a vaccine for it. I don't want to risk my kids by sending them to school. I am happy to put in extra effort to teach my kids as long as I know they are safe.

Thanks a lot

Proud mother of Sherlie (Grade 4 B)

Dear Madam, Feedback on online classes: Good experience on online classes but it should be managed or organized manner in future. I have a suggestion that if any online classes to be continue in future, during the class hour, please instruct the teacher that they should not ask any questions to individual student by their names, teacher only ask them whether they understand or not, if not then the student can ask the question. Actually most of parents have complained that why Madams are asking few students name where as other students are active in online classes. About Teachers My son always praises that new English teacher's teaching style is excellent. She gives every day worksheet, notes, grammar books complete exercises on stxaviors portal but last 3 years we never get those kind of potentially from any English teacher. My Son's class teacher always active and sending all updates without delay. Her teaching style is up to the mark and this is the 1st time in Stxaviors has appointed a very good Hindi teacher but last 3 years it was missing. All other teachers are as usual.

Thanks a lot

Online classes are good in this covid-19 situation. You are putting great efforts and we appreciate that. If this continues after June I would suggest to teach content from books and make books available in school ASAP. So that each student can study better from July onwards.

Thanks a lot

Proud mother of Aditi (Grade 5)

You did excellent job mam. Your manner of teaching is excellent. 👍

Thanks a lot

Feedback of online classes I would like to thank to all faculty and staff members of St. Xavier High School who continuously strive towards the growth of our child by providing their best efforts through online teaching during this pandemic situation. It is very difficult to create classroom environment through the online medium but teachers did it very well and in a disciplined way. During online classes parents were also grateful to see the talent of teachers and their teaching methodology. Along with studies, students were also taught many creative work and moral education. Our daughter also learned many new things like creating PPT presentation and many more which is rarely seen in children of this age. I suggest to St. Xavier management to continue this online teaching program from July onwards because looking into current situation it will not be safe to send children to school till the time any solution of this pandemic situation comes in.

Thanks a lot

ऑनलाइन शिक्षा

दुनिया एकदम बदल गयी एक महामारी के आने से,
जिन्दगी जैसे ठहर गयी थी इस प्रलय के आने से ।

मन्दिर क्या मस्जिद क्या गुरुद्वारे भी शान्त हुए,
इस दौर में शिक्षा के आलय भी सुनसान हुए ।

विद्या देवी का वीणा भी क्रन्दन सा करने लगा,
पर धरती के इन गुरुओं ने कर्तव्य पथ न डिगने दिया ।

अपने ज्ञान का प्रकाश फैलाया तकनीकी के माध्यम से,
अनुशासन भी खूब सिखाया ऑनलाइन के साधन से ।

नमन मेरा उन सब गुरुओं को, शिक्षा-सफर न रुकने दिया,
वीणा धारी माँ सरस्वती का मस्तक भी न झुकने दिया।

What i'm liking

- 1. I'm able to understand everything .*
- 2. I can clear my doubts .*
- 3. Teacher are explaining everything thouraly.*
- 4. I'm enjoying the new way of studies .*

What i'm not liking

- 1. The timing are a bit less as it takes time to get connected , as soon as we get connected after 15 to 20 minutes the period or the slot gets over .*

Thanks a lot

proud mother of Rachael (grade 7)

I think online classes are good as we can study from home and can take rest after class in school we had to wait for the bell. I like all subjects in online classes there is only one problem of online classes that we have to look at mobile for long hours and eyes hurt but I think it is a effective way of teaching

Thanks a lot

Proud mother of Jayesh (Grade 8)

The online classes were good but there are many problems in the online classes like removing from meeting, network connectivity, (from ma'am side or from my side), and many others. But the way the teachers was teaching were good. 👍
